- Performing analysis namely Forecasting Customer Lifetime Value, Measuring Long-term Value of Campaigns, Churn Analysis, Product Banner/Brand Sequence Analysis, Recency Frequency Monetary Analysis, Sentiment Analysis, Navigation Menu Analysis, Net Promoter Score Analysis, Market Basket Analysis, TV Advertisement Analysis, Site Search Analysis, Marketing Channel Attribution Analysis (Markov Chain Analysis), Related Products Analysis, Time Series Decomposition, Product Demand Index Analysis, Scroll Depth Tracking Analysis, Anomaly Detection Analysis, Causal Impact Analysis
- Working on Machine Learning and Predictive Analytics using R Language & Google Prediction API.
- Blog Writing.

## EDUCATION

### **M.Tech**

Computer

2016

### **B.E. in Computer**

Saurashtra University

2007

## SKILLS

ALGORITHMS (1 year), APACHE (1 year), JAVA (1 year), SCRIPTING (1 year), API (Less than 1 year)

## ADDITIONAL INFORMATION

### CORE COMPETENCIES

- Strategic Thinking.
- Expertise in data science softwares such as R, Python & Apache Spark.
- Google Analytics & Google BigQuery Consultant.
- Statistical Modelling & analytic ability.
- Big data analytics.
- Machine learning & Predictive algorithms.
- Communication & Project Management.
- C#/Java, database and web technologies.

### TECHNICAL SKILLS

Operating System Windows, Unix, Linux.

Programming Language R, Python, SQL, C#.NET, Visual Basic.NET, Java.

Database MS Excel, MS Access, Oracle, SQL Server 2000.

Mark Up / Scripting

HTML, ASP, ASP.NET, Core Java & Advanced Java

Language/Web

Programming.

Technologies

Packages/Tools Apache Spark, Google Analytics, Google BigQuery, Google Prediction API, R Studio, Rattle, Shiny, XLMiner, Weka, Rapid Miner, Tanagra.

Theories Data Mining, Object Oriented Analysis & Design, Management Information system, Data Structure & Algorithms, Advanced Database Management System, Operating Systems, System Analysis and Design & Unified Modelling Language, Software Engineering, .NET Platform, Technical writing.
